## 12th Australasian Plant Conservation Conference 2018

*'Moving house - a new age for plant translocation and restoration'*

CSIRO Discovery Centre, Canberra  
11 – 15 November 2018

[www.anpc.asn.au/conferences/2018](http://www.anpc.asn.au/conferences/2018)

Join us for a week of exciting presentations, local field trips and a 1-day translocation workshop.

### CONFERENCE THEMES

- Moving house – lessons from the past – who's done what where and what do we now know?
- Moving house – what's new?
- Policy and politics of moving plants.
- Crossing over – what can we learn from moving organisms other than plants?
- Effective partnerships – who, why and how? What works and what doesn't?
- Do you need a safe deposit box? The importance of ex-situ conservation in translocation.

### Sponsorship opportunities now available!

Call for Abstracts opens 2 May 2018

Early-bird registrations open 21 May 2018

ANPC members receive discounts on the conference registration fees!

Threatened plants from the ACT region all growing at the Australian National Botanic Gardens in Canberra: *Swainsona recta* (Small purple pea) – Lily Berry;  
*Ammobium craspedioides* (Button Wrinklewort) – Jo Lynch; *Calotis glandulosa* (Mauve Burr-daisy) – Lily Berry.
