NATIVE PASTURE MANAGEMENT

Corowa District Landcare invites you to join Martin Driver, Project Manager from the Australian Network for Plant Conservation Inc. as we look at different types of native pastures and their management for sustained, profitable production. We'll identify some of the key species, their values, attributes and management options as we walk through the various grassland/woodland communities typical of the wider Urana region.

- Date:** 10am – 3pm, Wednesday 24th of May, 2017
Venue: “Cocketjegong Station”, approx. 24 km west of Urana on the Collingullie-Jerilderie Rd, **Urana**
BYO: Chair, water bottle, hat, rain jacket, camera and notebook.
RSVP: Joanne Diver/Judy Kirk at Corowa District Landcare.
Ph 02 6033 1137, corowalandcare2@bigpond.com

All welcome. Lunch provided

This project is brought to you by Corowa District Landcare Inc., and is supported by the Australian Network for Plant Conservation Inc., with support from Murray Local Land Services through funding from the Australian Government's National Landcare Programme
