Plant Translocation Workshop
12th Australasian Plant Conservation Conference, Canberra
Wednesday 14 November 2018
CSIRO Discovery Centre Theatre

Based on the new Third Edition of the ANPC's
'Guidelines for the Translocation of Threatened Species in Australia'.
Workshop and Guidelines sponsored by the [Threatened Species Recovery Hub](#).

Program

Time	Topic	Speaker
9.00	Introduction to Workshop	Lucy Commander
9.10	Plant translocation in Australia	Jen Silcock
9.40	Pre-translocation assessment of ecology and biology	Lucy Commander
10.00	When do you need a geneticist, and site selection	Dave Coates
10.30	Morning Tea	
11.00	Translocation policies and requirements for approvals	Simon Nally
11.30	Pre-translocation preparation – using a model incorporating a genotype collection method	David Taylor
12.00	The translocation and ongoing management	Leonie Monks
12.30	Lunch	
1.30	Experimental design, monitoring and evaluation	Heidi Zimmer
2.00	Case study: Whole plant transplantation	Steve Mueck
2.20	Case study: Biotic interactions with a focus on Orchids	Noushka Reiter
2.40	Case study: <i>Pomaderris delicata</i>	Keith McDougall
3.00	Afternoon tea	
3.30	Panel discussion on between state collaboration on translocation. Topics include cross-border species management, uniform policy for EPBC listed species translocations across states, co-ordinating translocation proposals to consider species across their entire range.	
4.15	Wrap up and thank you	Lucy Commander
4.30	End	
5.00	Networking Drinks at Fellows Bar, ANU (at own cost)
