

Sandhills Management & Rehabilitation Field Day

Thursday 31st August

You are invited to Oolambeyan National Park to view one of the best examples of Riverina White Cypress Pine Sandhills. Find out how best to manage livestock grazing, how to revegetate sandhills through natural regeneration, planting and direct seeding, and the funding currently available to landholders. We will talk openly about the challenges and successes of managing sandhills including rabbits, biocontrol, boxthorn and weeds.

There will be demonstrations of boxthorn removal using brush-cutters, rabbit control techniques and tree seeding machinery, plus experts from many different fields available to answer your questions.

Morning tea, BBQ lunch and drinks will be provided.

9:30am Meet at Oolambeyan Homestead

Oolambeyan NP is approximately 90kms south east of Hay and 130km north east of Deniliquin. Entry to the homestead is via the Conargo road. Please ask for directions if you need them when you RSVP.

RSVP by Monday August 28th

Michael Fayle 0409 784 752 or michael.fayle@lls.nsw.gov.au

Graham Fifield 0447 436 715 or gfifield@greeningaustralia.org.au
